Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

I am going to be 60 yrs old this July. And I was getting a monthly, some times 2 times a month Menstrual flow. Many times Very heavy. Progesterone 300 mg has worked wonderful for me. Has taken care of my nervousness and anxiety. I was on progesterone 100mg three a day, which did not take care of the symptoms or Menstrual flow. Can you imagine having a Period for 48 years -
